

## SLIMMING GEL

**SLIMMING GEL** – this acupuncture gel embodies the combination of ancient Chinese medicine and modern biotechnology, and is the result of the research of many years carried out by highly experienced experts. The use of active molecular gold dispenses the direct use of acupuncture needles.

This quickly absorbing **SLIMMING GEL** can be applied by anybody, anywhere and anytime according to the instructions, without anybody noticing, and it allows millions of people to enjoy the benefits of acupuncture.

Instructions of Use: Apply a little amount of gel 3 times per day with your finger-tip into your earflap cleaned thoroughly previously. Apply the gel to the points as indicated in the illustration: (1) – the area before the ear hole within the earflap and (2) – the protuberant part before the ear hole close to the face.

The active molecular gold induces bioelectrical circulation at the acupuncture points, and significantly appeases the sense of hunger.

The **SLIMMING GEL** is not panacea, it does not reduce body fat in itself, but it does help reduce the body's absorption of nutrients. If you start to feel hunger, always apply some **SLIMMING GEL** first as per the instructions, and eat something then. You do not have to follow a special diet, you can eat everything, and the **SLIMMING GEL** will help you follow the principle of "eating a little of anything you like".

The treatment should be continued until reaching your desired weight, but for 2 months at least. According to the test results, if the product is used three times a day regularly, a weight loss of 3–5 kilograms can be achieved per month.

The product has no known side effects.

### Ingredients (INCI)

Aqua, Tetrahydroxypropyl Ethylenediamine, Carbomer, Hydrolyzed Soy Protein, Methylchloroisothiazolinone (and Methylisothiazolinone, C.I. 77480
